i) Information on Significant Contracts Relating to Change in Control over the Company as a Result of a Takeover Bid

ČEZ, a. s., has entered into significant contracts that will become effective, change, or expire if control over ČEZ changes as a result of a takeover bid. These are the 3rd, 8th, 15th, 17th, 26th, 30th, and 31st Eurobond issues; the 1st, 2nd and 4th Namensschuldverschreibung issues; the 2nd US bond issues; the ČEZ, a. s., Promissory Note Issue Program and bilateral committed and uncommitted credit lines; loan agreements with the European Investment Bank for EUR 200 million made in 2014, EUR 330 million made in 2019, EUR 300 million and EUR 100 million made in 2021, and EUR 790 million made in 2022. In these contracts, the counterparty would be entitled, but not required, to demand early repayment should there be a change in the controlling entity of ČEZ. However, the right to early repayment may be exercised only if either Standard & Poor's or Moody's publicly declares or notifies ČEZ in writing that it has downgraded ČEZ's existing credit rating due to, in full or in part, the change in controlling entity. Downgrading an existing credit rating is defined as any change from investment grade to noninvestment grade, any downgrade of original noninvestment grade, or nondetermination of investment grade if no rating is given at all. The above downgrading would have to take place in the period from the public disclosure of the step that could result in the change in controlling entity to 180 days after the announcement of the change in controlling entity.

The counterparty would not be allowed to exercise its right to early repayment if, following the actual change in the controlling entity, the credit rating agency reevaluated its position and restored ČEZ's investment grade or original noninvestment grade rating within the period defined above. The contractual provisions concerning a change in control over ČEZ should be seen in the context of ČEZ's credit ratings, which in 2022 were A- (with a stable outlook) by Standard & Poor's and Baa1 (with a stable outlook) by Moody's, that is, 4 and 3 grades, respectively, above the credit rating agencies' noninvestment-grade ratings. Said change-of-rating condition does not apply to the loan agreements with the European Investment Bank, worth EUR 1,720 million in total, under which the counterparty's right becomes effective as soon as control over ČEZ changes.

j) Information on Contracts Binding the Company in Relation to a Takeover Bid

ČEZ has not entered into any contracts with members of its Board of Directors or its employees in which the Company would undertake to provide performance in case their service or employment is terminated in relation to a takeover bid.

k) Information on the Program Control System That Allows Acquiring the Company's Corporate Securities

ČEZ top managers' compensation included an incentive program that allowed them to acquire Company shares (a "stock option plan") until the end of 2019. Under the stock option plan applicable until December 31, 2019, members of the Board of Directors and selected managers were entitled to options on the Company's common stock under the terms and conditions set forth in their service contracts (for Board of Directors members) and stock option agreements (for selected managers). Under the stock option rules, members of the Board of Directors and selected managers received options on a certain number of Company shares every year as long as they remained in office. According to the rules of the stock option plan, the exercise price per share was determined as the weighted average of prices at which Company shares were traded on the regulated market in Czechia during one month before the annual grant date, and stock option beneficiaries may call on the Company to transfer shares up to the

number corresponding to a given option grant, no earlier than two years and no later than by the middle of the fourth year after every option grant. The exercise of the stock option (in relation to allocating stock options to which the right arose until the termination of the stock option plan) is limited so that the appreciation of the Company's shares may not exceed 100% of the purchase price. On an ongoing basis, the stock option plan was monitored internally at the level of the relevant Company's departments in accordance with these rules.

In 2022, there were 17 individuals among employees and members of the Board of Directors who owned shares of stock obtained through the stock option plan. None of the individuals exercised their right to attend the shareholders' meeting of ČEZ as a Company shareholder. Dividend rights were exercised by 14 people. None of the above-mentioned 17 individuals exercised any other rights associated with their ownership of Company shares. According to information submitted to the Company for the purposes of preparing this report, no beneficiary of the stock option plan transferred any separately transferable right attached to their shares to any third party.

The stock option plan was terminated on December 31, 2019, based on the Supervisory Board's decision approving amendments to service contracts (in relation to members of the Board of Directors) and the Board of Directors' and Supervisory Board's decision to terminate the stock option plan in relation to the selected managers. The right to exercise the call for options granted until the end of 2019 has been maintained, with the following exception: All option grants provided to members of the Board of Directors and/or selected managers in 2019 were reduced proportionately so as to correspond to the number of shares determined according to the number of days remaining between the grant date and the end date of the stock option plan (that is, December 31, 2019). During 2022, all remaining options were exercised by the beneficiaries of the plan, effectively terminating and settling all remaining options of the participants in the stock option plan.

Starting from January 1, 2020, the stock option plan was replaced with a new long-term performance-based bonus system for members of the Board of Directors and a new system of long-term performance-based bonus agreements/multiannual bonus agreements for selected managers. The new system of long-term performance-based bonus is not linked to the right to acquire Company's shares. The long-term performance-based bonus program reinforces alignment of beneficiaries' and shareholders' interests by taking into account of the payment of dividends and fulfillment of defined performance indicators besides being linked to the long-term trend in the market price of shares. The performance indicator is determined on the basis of Total Shareholder Return (TSR) and its performance is assessed relative to the TSR percentile achieved by the Company in relation to all the companies included in the STOXX Europe 600 Utilities stock index compiled by Deutsche Börse AG.
